

Environmental Technician

Felker Brothers Corp. is accepting applications for an Environmental Technician in our Marshfield, WI facility. This position is responsible for supporting both the water pretreatment and pickling processes while monitoring, testing, collecting data, and maintaining records. This position is also responsible for supporting hazardous waste, universal waste and storm water programs while maintaining regulatory compliance with local, state, DNR and OSHA rules and regulations.

An associate degree with two years' experience in an EHS position is preferred. Must be willing to obtain DOT HAZMAT and RCRA certifications; must be able to work flexible hours to include off-shift hours and weekends; must have strong written and verbal communication skills and must be able to work independently or with others.

We offer a competitive wage and benefit package, to include health, life, dental and disability insurance, paid time off and a retirement plan.

Interested candidates may apply by *application to:

Felker Brothers Corporation
Attn: Human Resource Department
22 N. Chestnut Avenue
Marshfield, WI 54449

*Applications available at www.felkerbrothers.com

An equal opportunity employer.
