

Felker Brothers Corporation, a manufacturer of stainless steel pipe, tube, fittings and prefabricated piping systems, has openings in our Marshfield location for the following positions:

**PIPING ESTIMATOR:** This position requires preparation of accurate labor and material estimates utilizing AutoCad; communication with customers to assist with the understanding of project requirements and offer economic alternatives to their designs; preparation of proposal cover page, scope of supply, general notes, exclusions/clarifications, and information sheets for each bid; follow-up on proposals to determine award status and competitiveness and communication with internal personnel on status of bids. Position requires strong communication skills, ability to read and create (AutoCad) drawings, good organizational and business skills and the ability to handle multiple tasks. An associate degree with an emphasis in engineering/design is preferred.

**FABRICATION SUPERVISOR (3<sup>RD</sup> SHIFT):** This position will be responsible for effective crewing and ensuring safety and quality requirements are followed; serve as point person for communication to off shifts on production issues; review job notes for new and upcoming jobs for any special requirements and to take the lead on jobs with special requirements. Must be able to read and interpret blueprints, be knowledgeable of welding techniques/processes, and possess strong decision making, problem solving and communication skills. An associate degree in management or industrial engineering and prior supervisory experience required. Experience in BPCS preferred.

**FAB/FITTERS:** Requirements include demonstrated ability to produce acceptable quality production welds in various positions using both MIG and TIG processes on a variety of stainless steel products, strong math skills, excellent past attendance record and good communication skills. Blueprint reading preferred. High school diploma, or equivalent, required.

**UTILITY OPERATOR** – In this position, individuals will be required to weld (MIG and TIG) and run various machines. Requirements include good communication skills, excellent past attendance record and ability to work with others. Weld training/experience preferred. High school diploma, or equivalent required.

We offer a competitive wage and benefit package, to include health, dental, life and disability insurance, and paid holidays and vacation.
