

## **Project Manager – Marshfield, WI**

We are seeking a Project Manager to work in our Marshfield, WI facility. Responsibilities include coordinating all aspects of the fabrication project from the time of the Purchase Order to shipment. This would include the development of the internal order, pricing of the components, checking and distribution of the drawings, customer relations for the order, coordination with the shop personnel, verification of the shipping schedule, and any other duties to ensure a profitable and on time project.

Prefer an individual who possess a good working knowledge of Felker Brothers fabricated products and capabilities or sufficient experience in the stainless steel industry. Must possess strong leadership skills and have demonstrated abilities to work with others toward specific objectives. Must possess sound written and verbal communication skills, good time management skills and basic computer skills. Use problem solving techniques and apply initiative for dealing with unforeseen circumstances and difficult tasks. Must possess the ability to read and understand architectural and mechanical drawings. Have a minimum of four years experience in piping fabrication or a related field.

Interested candidates should apply via \*application to:

Felker Bros. Corp – PM  
Attn: HR Department  
22 N. Chestnut Avenue  
Marshfield, WI 54449

An equal opportunity employer/drug test required

\*Application available on website.
