

Utility Operator

Glasgow, KY | Full-Time

We are seeking dependable and safety-focused Utility Operators to support operations in our Pickling department. This role involves operating forklifts, overhead cranes, hydro-test and line marking equipment, and ensuring products meet quality and safety standards.

Key Responsibilities

- Perform immersion pickling and rinsing processes to ensure proper passivation and contamination prevention
- Operate hydro-test and eddy current testing equipment to required specifications
- Inspect products to established quality standards
- Program printers for accurate product identification and labeling
- Move materials and products throughout the facility using manual or powered equipment
- Collect and properly dispose of scrap materials
- Maintain accurate process documentation
- Support plant operations in other departments or shifts as needed
- Follow all safety procedures, hazard communication standards, and 5S housekeeping practices
- Participate in continuous improvement and quality initiatives

Qualifications

Required

- High school diploma or equivalent
- Mechanical aptitude
- Ability to work safely in an industrial environment
- Strong communication, teamwork, and problem-solving skills
- Ability to manage time and maintain an organized work area
- Legible handwriting and accurate documentation skills

Preferred

- Experience operating forklifts and overhead cranes

We offer a competitive wage and benefit package, to include health, dental, life and disability insurance, retirement plan and paid vacation and holidays. Interested candidates may apply by submitting their *application and resume to: jjessee@felkerbrothers.com or mail to:
